When prolonged or repeated contact may occur, use chemically resistant gloves and full body clothing.

ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment wash water or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the state or tribal agency responsible

ZeroTol® Ready to Spray should not be combined or mixed with any other pesticide concentrates

This product is not intended as treatment against any public health organism for any use on this label.

FOLIAR TREATMENTS

Use ZeroTol Ready to Spray as a fungicide/bactericide to treat/control plant diseases on all flowering plants, ornamentals, house plants, vegetable, berry and fruit plants, trees and shrubs.

ZeroTol Ready to Spray works immediately on contact with any plant surfaces for the control/suppression of fungi and bacteria: Botrytis, Downy Mildew, Powdery Mildew, Leaf Spot, Leaf Blight, Xanthomonas, Anthracnose, Rhizoctonia, and Pseudomonas. Apply ZeroTol Ready to Spray to ornamentals, bedding plants, vegetable plants, flowering plants, shrubs, and trees. To ensure that this contact fungicide is effective, thorough coverage and wetting of the foliage is necessary.

Care should be taken when using ZeroTol Ready to Spray Liquid for curative control of obligate organisms living on the plant tissue (such as downy and powdery mildew). These treatments may result in lesions on plant tissue. ZeroTol Ready to Spray Liquid will oxidize parasitic organisms living in plant tissue that are not always visible to the naked eye. Resulting oxidative effects may include spotting or drying of the plant tissue where organisms inhabited tissue.

Hose-End Sprayer Application:

- 1) Attach ZeroTol Ready to Spray® hose-end sprayer to the end of a garden hose and turn on water.
- 2) Set hose-end sprayer to "H2O" setting (water only) and spray all surfaces to remove loose dirt.
- Set hose-end sprayer to "Mix" setting and thoroughly wet all surfaces with solution.
- 4) Allow treated items and/or surfaces to remain wet with solution for one (1) minute.
- Allow treated items and/or surfaces to air dry. Do not rinse.
- 6) Turn water off and detach hose-end sprayer when not in use.

- To Refill Hose-End Sprayer Bottle From Concentrate:

 1) Remove spray applicator from empty hose end sprayer.
- 2) Wear rubber gloves when handling concentrate.
- 3) Unscrew cap on refill concentrate and pour contents directly into empty hose end sprayer.
- 4) Replace spray applicator on hose end sprayer, hook hose onto spray unit and use according to directions.

Reapply as often as needed for control.

Note: ZeroTol Ready to Spray® has not been tested on all plant species; it is always advisable to test ZeroTol Ready to Spray® on a small number of plants before treating large numbers. Do not apply to wilted plants.
