PRODUCT INFORMATION

SA-50 Brand Spreadable Granular Soil Wetting Agent is an easy to use granular formulation of **SA-50 Brand Liquid Soil Wetting Agent**. It is safe to use, at full rates, even during stress conditions. The granules can be easily applied with a spreader and are excellent for spot treating problem areas.

The use of **SA-50 Brand Spreadable Granular Soil Wetting Agent** will help ensure uniform distribution and availability of moisture and applied nutrients in the root zone, reduces evaporative water loss and aids in the penetration of water and other solutions into the soil. It will prevent the problems associated with too little or too much water. It is non-ionic and non-toxic to plants and animals and is biodegradable.

DIRECTIONS FOR USE

SITE	APPLICATION	RATE	DIRECTIONS
Lawns, Fairways & Sports Fields (1)	Initial & Maintenance	3 1/2 lbs./1000 sq. ft. or 140 lbs./acre	Apply at start of growing season and reapply every 3 - 4 months.
	Problem Area	3 1/2 lbs./1000 sq. ft.	Apply weekly until problem is alleviated.
Greens & Tees (1)	Initial (Early Spring)	7 lbs./1000 sq. ft.	Apply to dry turf. Water in with 1/10 inch of water from irrigation or rainfall. If not watered in, leave baskets off at next mowing. After 1 month begin maintenance application.
	Maintenance	3 1/2 lbs./1000 sq. ft.	Apply evenly with spreader and repeat monthly
	Problem Area	3 1/2 lbs./1000 sq. ft.	Apply weekly until problem is alleviated.
Trees & Shrubs	Installation	3/4 lbs. plus 1 lb./foot of rootball diameter or 4 lbs./cu. yd. of backfill	When planting, spread 3/4 lbs. in the hole and apply 1 lb. over the surface for each foot of rootball diameter. Begin maintenance applica- tion 3 - 4 months after planting.
	Maintenance	7 lbs./1000 sq. ft.	Apply evenly from trunk to drip line. Repeat every 3 - 4 months.
Landscape Beds	Initial & Maintenance	3 1/2 lbs. 1000 sq. ft.	Apply at planting and reapply at 3 - 4 month intervals.
Soil & Soilless Mixes	Initial	4 lbs./cu. yd. or 5 1/3 oz./ U.S. bushel	Incorporate thoroughly by mixing or tumbling. (2)

**Net Weight: 40 lbs.
(18.14kg)**

(1). For enhancement of turf seed germination by improving drainage and water availability, apply 1 3/4 lbs. 1000 sq. ft. when preparing soil for seeding. Begin maintenance application 1 month after germination.

(2). Wetting agent remains active in soil mix for about three months. i-or best results, use mix within three months. If stored, keep mix dry.

NOTE: Do not apply this product within 5 days of highly soluble nitrogen fertilizer unless rainfall or irrigator has occurred between applications. Buyer assumes all risks of use, or handling of this material not in strict accordance with the directions for use and precautions stated on this label.
