

TRIAMINE[®] Jet-Spray

SPOT WEED KILLER

A three-way post-emergent selective broadleaf herbicide for spot treatment of hard-to-kill weeds.

The Broadleaf Blaster They'll Never See Coming

CONVENIENT, READY-TO-APPLY PRODUCT IN AN AEROSOL CAN: FOAM-BLASTING formulation marks weeds for easy-to-see spot treatment coverage.

THREE-WAY HERBICIDE COMBINATION OF 2,4-D AMINE + MECOPROP-P + DICHLORPROP-P: Designed for hard-to-kill weeds such as clover, chickweed, henbit, dandelion, and oxalis.

IDEAL SPOT TREATMENT FORMULATION: Allows targeted spot treatment with reduced risk to nearby sensitive plants.

BROAD-SPECTRUM BROADLEAF WEED CONTROL: Controls more than 250 weeds on lawns and ornamental turf.

Better Choices. Better Business.
