

Broad-spectrum botanical insecticide with virtually no insect resistance.

Azatrol[®] EC Insecticide is Gordon's professional formulation of azadirachtin, a well researched botanical insecticide/miticide with multiple modes of action, making it the perfect complement to an Integrated Pest Management (IPM) program. Azatrol is formulated from a highly active technical azadirachtin which provides efficacy at lower rates*, low odor and superior emulsification.

Azatrol's multiple modes of action also make it virtually impossible for insect resistance to develop. Azatrol acts as an anti-feedant, an Insect Growth Regulator (IGR) and as a repellent and ovipositioning deterrent.

Anti-feedant: Insects will feed less or not at all on treated foliage, ultimately starving to death.

IGR: Insects will fail to mature and reproduce.

Repellent/Ovipositioning

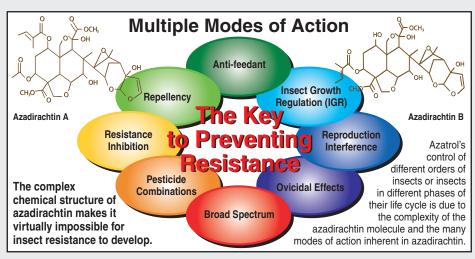

deterrent: Infestations on treated plants becomes highly unlikely, offering a preventative aspect to treatment programs.

Tank-mix combinations of Azatrol and other insecticide products have been shown to significantly enhance the effects and broaden the spectrum of other insecticide products. Azatrol is a natural fit in IPM programs.

Azatrol offers an array of effects by acting as a repellent, molting inhibitor and preventing insect larvae from developing into adults. In addition to low toxicity to humans, Azatrol is a sensible alternative to conventional insecticides in IPM programs for the protection of ornamentals and turf.

*Because of its greater purity, Azatrol is effective at lower rates than other azadirachtin products.

Azatrol is a registered trademark of PBI/GORDON CORPORATION.

- Broad-spectrum insect control
- Multiple modes of action
- Excellent efficacy on chewing and sucking insect pests
- OMRI listed

- Low mammalian toxicity
- CAUTION signal word
- Complements IPM programs
- Highly active technical
- Does not promote insect resistance

RECOMMENDATIONS

Use alone or in tank-mix combinations for control of chewing or sucking insects on indoor or outdoor ornamental plants, trees, shrubs, flowers, fruit and nut trees and garden vegetables.

ACTIVE INGREDIENT:

Azadirachtin									1.2%
Other Ingredients							•		98.8%

EPA Reg. No. 2217-836

PACKAGING:

Plastic U.S. quarts: 12 X 1 per case:
shipping weight
Plastic U.S. gallons: 4 X 1 per case:
