

Tank Cleaner

LIQUID CLEANING & DECONTAMINATION AGENT

For the removal of pesticide residues from spray equipment.

ACTIVE INGREDIENT:

Alkaline ethoxylate of a non-ionic surfactant 3%

Keep Out Of Reach Of Children

CAUTION

FIRST AID

- **IF SWALLOWED:** Do not induce vomiting. Seek medical attention.
- **IF ON SKIN:** Wash immediately with soap and water.
- **IF IN EYES:** Rinse immediately for 15 minutes with cool water. Seek medical attention.

PRECAUTIONARY STATEMENTS

• HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION—May cause irritation to eyes and skin. Harmful if swallowed. Wash thoroughly with soap and water after handling.

• PERSONAL PROTECTIVE EQUIPMENT (PPE)

Mixers/loaders should wear long-sleeved shirt and long pants, waterproof gloves, protective eyewear with side shields, and shoes with soles.

USER SAFETY RECOMMENDATIONS: User should wash hands before eating, chewing gum, using tobacco, or using the toilet. Wash outside of gloves before removing. Remove contaminated clothing as soon as possible, wash thoroughly to avoid skin contact.

• STORAGE AND DISPOSAL

Storage: DO NOT contaminate water, food, or feed by storage or disposal. Store in original container only. Keep away from children and unauthorized persons.

Chemical Disposal: If spray solution, tank rinsate, or product cannot be used according to label directions, dispose of in accordance with all applicable federal, state, and local laws.

Container Disposal: Do not use empty container. Triple rinse (or equivalent) container, puncture to ensure discontinued use for another purpose, and offer for recycling or reconditioning or dispose in a sanitary landfill, or by other methods approved by federal, state, or local laws.

Keep From Freezing.
Shake Well Before Using!

GENERAL INFORMATION

Cleary's TANK CLEANER is an effective and economical liquid which cleans the spray equipment while inhibiting rust and solubilizing the residual pesticides in the tank, leaving a rinsate which is harmless to turf. Cleary's TANK CLEANER is useful as a decontamination agent when combined with an activated carbon product such as Cleary's D•TOX.

DIRECTIONS FOR USE

FOR EQUIPMENT CLEANING

Mix one quart of Cleary's TANK CLEANER into 20 gal of water for each 100 gal of spray tank capacity. Allow mixture to agitate and circulate throughout the spray system for 15-20 min. Spray mixture may then be flushed from spray system.

FOR EQUIPMENT DECONTAMINATION

Mix two quarts of Cleary's TANK CLEANER and one gallon of Cleary's D•TOX Flowable Charcoal into 20 gal of water for each 100 gal of tank capacity. Allow mixture to agitate and circulate throughout the spray system for 15-20 min. Flush spray tank and system with clean water. Rinsate may be drained into a non-crop area. Best results are obtained on pesticides prone to alkaline hydrolysis and those having a strong absorbability to soil colloids. This mixture can affect most chlorinated hydrocarbons, organo-phosphates, carbamates and dinitroaniline compounds.

LIMITED WARRANTY AND DISCLAIMER

W.A.CLEARY CHEMICAL CORPORATION warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the risks referred to therein. W.A.CLEARY CHEMICAL CORPORATION makes no other expressed or implied warranty of fitness or merchantability or any other expressed or implied warranty. In no case shall W.A.CLEARY or seller be liable for consequential, special or indirect damages resulting from the use or handling of this product including, but not limited to, loss of profits, business reputation, or customers, labor costs, or other expenses incurred in planting or harvesting. W.A.CLEARY and seller offer this product and the buyer and user accept it subject to the foregoing conditions of sale and warranty which may be varied only by agreement in writing signed by a duly authorized representative of W.A.CLEARY CHEMICAL CORPORATION.
