General Instructions

SURRENDRER is for use on lawns, around home foundations (perimeter treatments), ornamental and flower gardens, and vegetable gardens for the control of lawn and garden insects.

Labeling

Labeling is provided in the table below.

WARNINGS

SURRENDRER **G** when insect activity as directed is found a first observed (leaves thin, brown spots appear) or mowers fly up from the grass when mowed).

SURRENDRER **G** uniformly over lawn using the suggested spreader settings. For best results, use a mechanical spreader.

Repeat application if there are signs of renewed insect activity.

Do not use on any weed, disease, or insect control products for at least one week after application.

For best results and to prevent further damage, treat the entire lawn, not just the browned areas.

Repeat application if there are signs of renewed insect activity.

NOTE: For ornamentals such as tablespoons/teaspoons must not be used for food purposes after use in measuring pesticides.

This product is a pyrethroid. If large amounts have been ingested, milk, cream or other digestible fats and oils may increase absorption and so should be avoided.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.
