DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Not for use on plants being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes. For use on plants intended for aesthetic purposes or climatic modification and being grown in ornamental gardens or parks, or on golf courses or lawns.

Entry Restrictions: Do not allow people or pets to enter the treated area until dusts have settled. If watering is required after application, do not enter or allow others to enter the treated areas (except those involved in the watering) until the watering is complete and the surface is dry.

Application Restrictions: Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Use spreader in garden beds only. Do not use this product on lawns. Do not use with flower seeds.

When to Apply Easy Weeder in Home Gardens: Early application is best for easy weed control all season long. Do not apply any time around shrubs, trees and established plants. Before sowing listed vegetables except for the vegetables listed. Do not use with flower seeds.

How to Apply Easy Weeder: Since this product works by preventing weed seed germination, existing weeds must be removed before applying. Avoid over-application to prevent carryover problems with sensitive plants the following season. Do not use in enclosed areas such as greenhouses.

For Established Plant Application: Flowers, listed vegetables, ornamentals, and trees: sprinkle on soil surface (wearing rubber or plastic gloves or with a spreader) to match Example A (this is 1 oz. per 10 sq. ft.). For best results, lightly water into soil after application.

For Pre-Planting Application: Prior to transplanting 2-3" flowers, or, less than 10 weeks prior to planting vegetable seed, apply in medium soil to match Example B and mix in (this equals 1 oz. per 60 sq. ft.). Mix into soil with oleic acid oil; 1-2 oz. of liquid 1-3-0 or 1-3-2 oil. Transplant. Do not apply after transplanting, except on Irish potatoes.
