HAZARDS IDENTIFICATION

Potential Health Effects

CAUTION! Causes eye irritation. Harmful if absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing dust or spray mist.

Based on animal data, prolonged exposure by ingestion or inhalation may cause abnormal liver function as detected by laboratory tests.
Based on animal data, significant skin permeation, and systemic toxicity, after contact appears unlikely. Based on animal testing, it is not expected to be a skin irritant or sensitizer in humans.

Carcinogenicity Information

None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen.

FIRST AID MEASURES

First Aid

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: No specific intervention is indicated, as the compound is not likely to be hazardous by inhalation. Consult a physician if necessary.

IF INGESTED: No specific intervention is indicated, as the compound is not likely to be hazardous by ingestion. Consult a physician if necessary.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-441-3637 for emergency medical treatment information.

Some materials that are chemical resistant to this product are listed below. If you want more options, follow the instructions for Category A on an EPA chemical-resistance category selection chart.
Non-Agricultural Use PPE:
Applicators and other handlers must wear:
- Long-sleeved shirt and long pants.
- Chemical-resistant gloves made of any waterproof material such as butyl rubber, natural rubber, or neoprene rubber, greater than or equal 14 mils.
- Shoes plus socks.

Agricultural Use Worker Reentry PPE:
Sod farms are within the scope of the Worker Protection Standard.
Do not enter or allow worker entry to treated areas during the restricted entry interval (REI) of 4 hours.
PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:
- Coveralls.
- Chemical-resistant gloves made of any waterproof material, such as butyl rubber, natural rubber, or neoprene rubber, greater than or equal to 14 mils.
- Shoes plus socks.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
