InViteTM
roach lure

Cockroach Gel Lure
Extra Strength

Directions For Use

Place InVite Roach Lure in thin (1/8") lines on glueboards or in other traps or bait stations to attract roaches. More or less can be used depending upon the size of the trap or duration desired. A 0.2 g placement, which is about 1/2" long, will last up to 90 days. Product is still effective even if dry.

Precautions

Keep out of reach of children. Avoid ingestion or prolonged skin contact. Wash hands after use. If in eyes, rinse thoroughly with water and contact a physician if any persistent irritation results.
