PESTICIDE DISPOSAL:
- Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

PACKAGING:
- Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds. Repeat this rinsing procedure two more times.
- Refillable container. Refill this container with oxadiazon only. Do not reuse this container for any other purpose. Cleaning the container prior to reconditioning, or puncture and dispose of the container in a sanitary landfill, or by incineration; or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

CONTAINER HANDLING:
- Do not apply more than 3.7 fl. oz. per 1,000 sq. ft. (16.2 fl. oz. per acre) in a single application or more than 2 applications per year.

ACTIVITIES:
- Read the entire directions for use, conditions of warranties and limitations of liability before using this product. If terms are not acceptable, return the product.

IF IN EYES:
- Rinse with large amounts of water. If irritation persists, consult a physician.

IF INHALED:
- Remove from source of entry and move to fresh air. If breath is difficult, consult a physician.

IF SWALLOWED:
- Do not induce vomiting. If swallowed, keep at rest. Consult a physician.

FIRST AID:
- Read the entire directions for use, conditions of warranties and limitations of liability before using the product. If you are nauseous, consult a physician.

LIMITATIONS OF LIABILITY:
- Read the entire directions for use, conditions of warranties and limitations of liability before using the product. If you are nauseous, consult a physician.

COMPANY CONTACTS:
- Oxadiazon SC Herbicide, Quali-Pro Southern NC Restricted Applicator, P.O. Box 801, Raleigh, NC 27602-0801, 919-571-1585, 1-800-242-9747.

LIMITATION OF LIABILITY:
- In the event this product is used illegally, the user shall indemnify and save each and every attorney, person, or organization who may find itself or any of its property subject to or in any manner affected by any claim, demand, or cause of action arising from the illegal use or handling of this product against any and all liability, loss, or damage which may result from said use or handling therefrom, including, but not limited to, claims, demands, or causes of action based on personal injury, or property damage.
**EXPLANATORY STATEMENTS**

**Pesticides to Avoid Wearing or using during application.** For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read entire label before using this product.

Remove clothing/PPE immediately if pesticide gets inside. Then wash body thoroughly and put on clean clothing.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

**USES SHOULDS:**

- Use only as directed on the label. Do not use more than the recommended amount of this product.
- Do not apply more than the recommended amount of this product.

**APPLICATION INFORMATION**

Q. Pro® Oxadiazon SC Herbicide is recommended for use in turf, conifer nurseries, and ornamentals in most states. Check with your pesticide dealer, state Cooperative Extension Service, or Department of Agriculture before use to be certain QuaPro® Oxadiazon SC Herbicide is registered in your state.

State Specific Restrictions:

- The state of Arizona has not approved this product for use on agricultural sites. Do not use this product on uses considered by the Arizona statutes to be agricultural.
- Application closer to greenup may result in injury.
- Do not apply during the reproductive period of grass species.
- Application of Q. Pro® Oxadiazon SC Herbicide to newly planted zoysiagrass being grown for sod should be made prior to the growth stage of 2 leaves plus 1 set of expanded leaves. Do not apply Q. Pro® Oxadiazon SC Herbicide closer to greenup in established zoysiagrass lawns or other turf and ornamental plantings.

1. Do not apply to or near established homes, schools, public buildings, or other areas that are frequented by children or adults who may be exposed to the spray products. (See label for application information on ornamentals and conifer nurseries.) Do not apply more than the recommended amount of this product.

Annual Bluegrass®

**During application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.**

Some materials that are chemical resistant to this product are barrier laminate, butyl rubber

***MIXERS, LOADERS, APPLICATORS, AND OTHER HANDLERS MUST WEAR:***

- Long-sleeved shirt and long pants, shoes plus socks, and chemical-resistant gloves such as barrier laminate, butyl rubber, nitrile, or neoprene gloves.
- In addition, mixers and loaders must wear a chemical-resistant apron. See Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

**Important:***

Spray from reaching the soil surface; mow or rake the turf area to remove leaves or anything else that might prevent the spray from reaching the soil surface.

The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard (WPS) for agricultural pesticides, but are otherwise agricultural uses.

**USER SHOULD:**

- Wear appropriate protective clothing and equipment as described above and irrigate thoroughly if rain is not expected shortly after application.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**ENGINEERING CONTROLS STATEMENTS**

- The recommended method of application is ground hand sprayer. The use of ground hand sprayers is a worker protection standard requirement.

**USER SAFETY RECOMMENDATIONS**

- The herbicide used in the prepared application solution must be applied in accordance with the registered use. Spillages must be promptly cleaned up following the product label instructions. The product label must be kept at the application site unless the product label instructions state otherwise.

**ENVIRONMENTAL REMARKS**

- Do not add this product to washing machines or dishwashers, or to any water body such as lakes, streams, ponds, rivers, or irrigation ditches. Always follow label instructions regarding the proper disposal of used sprayer parts. Rinse thoroughly with water after cleaning equipment or disposing of equipment washwaters.

**Application of Quali-Pro® Oxadiazon SC Herbicide should be made prior to weed seed germination.**

**Best weed control is achieved when rainfall or overhead irrigation (one-half inch) is applied immediately after application. Rainfall or overhead irrigation to apply Quali-Pro® Oxadiazon SC Herbicide in these areas.**

**Best control is achieved when rainfall or overhead irrigation (one-half inch) is applied immediately after application.**

**Reseeding:***

- Annual (0.75 – 3.5 gallons of water per 1000 sq. ft.)

**Annual Sedge (Poa annua):**

- Annual Sedge (Poa annua) is a troublesome weed in turf, nurseries, and ornamentals. It can also be used as an over-the-top spray at listed rates on the ornamentals. It provides excellent control of crabgrass, goosegrass, and annual sedge. Application can be made to actively growing or dormant plants. Do not apply Quali-Pro® Oxadiazon SC Herbicide during bud break or during the 4-week period after bud break, or injury may occur.

**Soil absorption:***

Quali-Pro® Oxadiazon SC Herbicide is a suspension concentrate formulation containing 3.17 pounds oxadiazon per gallon. Quali-Pro® Oxadiazon SC Herbicide is recommended for use in turf, conifer nurseries, and ornamentals in most states. Check with your pesticide supplier for specific recommendations or call the EPA at 1-800-858-1315.

**WARNING**

**Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area in the direct or indirect (via ditches and canals) contamination of surface waters through dissolved runoff or erosion of soil particles to which oxadiazon is applied.**

Do not put any product on an area covered by standing water. 

Some materials that are chemically resistant to this product are barrier laminate, butyl rubber, and neoprene.

If you want more options, follow the instructions for category C on an EPA chemical resistance category selection chart.

**OVERALL USE REQUIREMENTS**

**Personnel Protective Equipment (PPE)**

**Covers**

- Overalls
- Long-sleeved shirt and long pants, shoes plus socks, and chemical-resistant gloves such as butyl rubber or neoprene

**Hand Protection**

- Chemical-resistant gloves—barrier laminate, butyl rubber, neoprene, or vinyl

**Foot Protection**

- Chemical-resistant boots or shoes

**Eye Protection**

- Chemical-resistant glasses or goggles

**Respiratory Protection**

- Respiratory protection is not required when using this herbicide. Follow local or state regulations.

**Direct Use**

- Do not apply this product to seedlings of susceptible weeds. When applied late in the season, seedlings of susceptible weeds emerge from treated soil and then wilt and die. A preemergent application of Quail-Pro® Oxadiazon SC Herbicide controls seedling emergence and prevents new growth.

**State Specific Restrictions:**

- Hawaii: Only for use in residential areas. Do not apply more than 1.85 fl. oz. of product per 1,000 sq. ft. or 80.6 fl. oz. per acre. Apply up to 2 active ingredient per season. Application closer to greenup may result in injury.

**Annual Bluegrass:**

- For control of crabgrass, goosegrass, and annual sedge. Apply Quail-Pro® Oxadiazon SC Herbicide at 1.85 fl. oz. per 1,000 sq. ft. (80.6 fl. oz. per acre) immediately after application for best results.

**Annual Broadleaf and Grass Weed Control:**

- Quail-Pro® Oxadiazon SC Herbicide is recommended for use in turf, conifer nurseries, and ornamentals in most states. Check with your pest manager to determine if this product is labeled for use on your property. Quail-Pro® Oxadiazon SC Herbicide is recommended for use in turf, conifer nurseries, and ornamentals in most states. Check with your pest manager to determine if this product is labeled for use on your property.

**Important**

- Do not apply in greenhouses, as plant injury may result from co-distillation of the active ingredient onto leaf surfaces in condensate.

**Precautions and Restrictions For Use of Quail-Pro® Oxadiazon SC Herbicide**

**Turf:**

- Do not apply more than 3.7 fl. oz. per 1,000 sq. ft. (161.2 fl. oz. per acre) in a single application or make more than 2 applications per year.

**Woody Ornamental Shrubs and Trees, Conifer Nurseries, and Ornamentals on Residential Properties:**

- Do not apply more than 5.55 fl. oz. of product per 1,000 sq. ft. per year (1.89 gallons per acre per year or the equivalent to 6 lbs a.i. per acre per year).

**Best Weed Control is Achieved When Rainfall or Overhead Irrigation (One-Half Inch) Is Applied Immediately After Application.** Rainfall or overhead irrigation (one-half inch) is required to ensure that the spray reaches the soil surface. A subsequent application may be required in conditions that reduce the effectiveness of the first application.

**Additional Precautions and Restrictions For Use of Quail-Pro® Oxadiazon SC Herbicide on Commercial Properties:**

- Do not apply more than 3.7 fl. oz. per 1,000 sq. ft. (161.2 fl. oz. per acre) in a single application or make more than 2 applications per year.

**Best Weed Control is Achieved When Rainfall or Overhead Irrigation (One-Half Inch) Is Applied Immediately After Application.** Rainfall or overhead irrigation (one-half inch) is required to ensure that the spray reaches the soil surface. A subsequent application may be required in conditions that reduce the effectiveness of the first application.

**Best Weed Control is Achieved When Rainfall or Overhead Irrigation (One-Half Inch) Is Applied Immediately After Application.** Rainfall or overhead irrigation (one-half inch) is required to ensure that the spray reaches the soil surface. A subsequent application may be required in conditions that reduce the effectiveness of the first application.

**Annually Broadcast and Spray Weed Control for Commercial Properties:**

- Do not apply more than 2.8 fl. oz. per 1,000 sq. ft. (122 fl. oz. per acre) in a single application or make more than 1 application per year.

**Best Weed Control is Achieved When Rainfall or Overhead Irrigation (One-Half Inch) Is Applied Immediately After Application.** Rainfall or overhead irrigation (one-half inch) is required to ensure that the spray reaches the soil surface. A subsequent application may be required in conditions that reduce the effectiveness of the first application.

Precautions and Restrictions for Use of QuaPro® Oxadiazon SC Herbicide

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 C FR Part 170. This Standard contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

TRAINING

• Remove PPE immediately after handling this product.
• Wash the outside of gloves before removing.

• Remove PPE if it is visibly contaminated with product or if it is worn long enough to absorb or penetrate the material. If contaminated PPE is not removed immediately, it may contribute to injury or illness.

• Wash hands and exposed skin before eating, drinking, smoking, or entering the toilet. Wash with soap and water or hand sanitizers containing at least 60% alcohol until all traces of the material are removed.

• Do not contaminate water, food, or feed by storage or disposal. Wash equipment if necessary. Make the work area clean and put waste in a trash can.

• If a solvent is used to clean PPE, the cleaning solvent must be removed from the PPE and any remaining solvent must be dried with a clean cloth.

PRECAUTIONARY STATEMENTS

• Wear protective clothing such as long-sleeved shirts, long pants, shoes, and gloves. Choose PPE based on the highest level of exposure that could occur.

• Do not eat, drink, or smoke in the area treated or in areas where this product has recently been used.

• Do not allow domestic animals to graze treated areas.

• Do not contaminate water, food, or feed by storage or disposal. Wash equipment if necessary. Make the work area clean and put waste in a trash can.

• Do not contaminate water, food, or feed by storage or disposal. Wash equipment if necessary. Make the work area clean and put waste in a trash can.

• Do not apply in greenhouses, as plant injury may result because of co-distillation of the active ingredient onto leaf surfaces in condensate.

• Do not apply this product to any grass areas unless the existing grass is killed by the time the treatment becomes effective.

• Do not simultaneously mix or use any product containing a materials of similar chemical classes (e.g., with a material containing a chloroacetanilide)

• Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 C FR Part 170. This Standard contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

DECONTAMINATION

• Wear protective clothing such as long-sleeved shirts, long pants, shoes, and gloves. Choose PPE based on the highest level of exposure that could occur.

• Wash contaminated PPE before reusing.

• Wash hands and exposed skin before eating, drinking, smoking, or entering the toilet. Wash with soap and water or hand sanitizers containing at least 60% alcohol until all traces of the material are removed.

• Do not contaminate water, food, or feed by storage or disposal. Wash equipment if necessary. Make the work area clean and put waste in a trash can.

• Do not contaminate water, food, or feed by storage or disposal. Wash equipment if necessary. Make the work area clean and put waste in a trash can.

• Do not apply in greenhouses, as plant injury may result because of co-distillation of the active ingredient onto leaf surfaces in condensate.

• Do not apply this product to any grass areas unless the existing grass is killed by the time the treatment becomes effective.

• Do not simultaneously mix or use any product containing a materials of similar chemical classes (e.g., with a material containing a chloroacetanilide)

• Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 C FR Part 170. This Standard contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.
**Tank Mixing with Quali-Pro® Oxadiazon SC Herbicide**

Read the entire directions for use, conditions of warranties and limitations of liability before using this product. If terms are not acceptable, return the product for a refund. By using this product, user or buyer accepts the following conditions of warranty and limitations of liability.

**Active Ingredient**: Oxadiazon

**Tank Mix Ratio**: Use rates are provided in the following table when using Quali-Pro® Oxadiazon SC Herbicide in a tank mixture with glyphosate in a ratio of 1:10 to 1:1.

13. LIABILITY LIMITATIONS

1. PRECAUTIONARY STATEMENTS

a. DANGER
   • Do not breathe spray cloud or aerosol. Spray is an irritant and may cause coughing, wheezing and shortness of breath.
   • Do not drink while using this product. Contact with eyes, mouth, or skin may cause irritation and burns. Wash affected areas thoroughly.
   • Do not allow spray to contact foliage of ornamental plants.
   • Do not apply within 60 days of transplanting.

b. WARNING
   • Do not allow spray containing a non-selective herbicide to contact foliage, stems, green bark, or bare roots of desirable turfgrasses.
   • Do not apply within 60 days of transplanting.

caution
   • Do not mix the amount of spray needed for immediate application needs, as settling can occur if spray mixture is allowed to sit over an extended period of time.
   • Do not apply with other non-selective herbicides.

2. DESCRIPTION
   Oxadiazon SC herbicide is a liquid formulation containing oxadiazon, the active ingredient used in Ronsar® Flo Herbicide.

3. USE RESTRICTIONS
   • Local conditions may affect the use of Quali-Pro Oxadiazon SC Herbicide. Consult State Agricultural Experiment Station or Extension Service weed specialists for specific recommendations for local weed problems and information on possible lower dosages.
   •glyphosate. Please refer to the non-selective herbicide label for information on surfactant and spray volume to use. Only mix the amount of spray needed for immediate application needs, as settling can occur if spray mixture is allowed to sit over an extended period of time.
   • Do not use on any landscape plants except those listed above.
   • Do not use on any landscape plants except those listed above.

4. RECOMMENDATIONS
   • Quali-Pro Oxadiazon SC Herbicide may be used in combination with a non-selective herbicide for control of broadleaf weeds and ornamental grasses in ornamental plantings and noncropland areas.
   • Quali-Pro Oxadiazon SC Herbicide may be used in combination with a non-selective herbicide for control of broadleaf weeds and ornamental grasses in ornamental plantings and noncropland areas.

5. TANK MIXTURES
   • Quali-Pro Oxadiazon SC Herbicide + Glyphosate
   • Quali-Pro Oxadiazon SC Herbicide + Trifluralin
   • Quali-Pro Oxadiazon SC Herbicide + Triazine

6. DIRECTIONS FOR USE
   • Read the entire directions for use, warnings, cautions, and restrictions before using the product. Items are not replacements, replace the label on the product itself.
   • Read the entire directions for use, warnings, cautions, and restrictions before using the product. Items are not replacements, replace the label on the product itself.

7. PREPARATION OF SOLUTIONS
   • To prepare a tank mixture, first measure and thoroughly mix the non-selective herbicide into the spray tank. Then add theQuali-Pro Oxadiazon SC Herbicide.
   • To prepare a tank mixture, first measure and thoroughly mix the non-selective herbicide into the spray tank. Then add theQuali-Pro Oxadiazon SC Herbicide.

8. FIRST AID
   • IF IN EYES:
     • Rinse closed eyes immediately with large amounts of water. Do not rub eyes.
     • Do not use contact lenses.
     • Rinse with running water for 15 minutes or until irritation subsides.

9. ENVIRONMENTAL CONSIDERATIONS
   • Oxadiazon SC Herbicide is a liquid formulation containing oxadiazon, the active ingredient used in Ronsar® Flo Herbicide.
   • Oxadiazon SC Herbicide is a liquid formulation containing oxadiazon, the active ingredient used in Ronsar® Flo Herbicide.

10. STORAGE
   • Store in a cool, dry place.
   • Do not store with food, feed, or feed equipment.
   • Do not use container for any other purpose.

11. DISPOSAL
   • To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container ¼ full with water and allow to stand for at least 24 hours. Then empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two or more times. Offer secondary collection or recycling when available.

The user or buyer assumes all such risks.

Manufactured by: Makkashim Agan of North America, Inc. 201 Main Street, Suite 201, Middletown, CT 06457 USA

For information on tank mix combinations, call 1-877-250-9291.
**Tank Mix Combinations for Ornamental Plantings and Noncropland Areas**

Emergence and post-emergence control of susceptible species listed on the respective labels of the two herbicides.

**glyphosate. Please refer to the non-selective herbicide label for information on surfactant and spray volume to use. Only mix the amount of spray needed.**

**Precautions for Tank Mixing Quali-Pro® Oxadiazon SC Herbicide and glyphosate.**

Restrict use of Quali-Pro® Oxadiazon SC Herbicide on Landscape Plantings:

- Apply only to established ornamentals at a minimum spray volume of 1 gallon of water per 1000 sq. ft. (43.6 gallons per acre).
- Remove existing weeds and mow before application to aid emergence of susceptible weeds.

**Activator (cable): 5.55 fl. oz. per 1000 sq. ft. (1.89 gallons per acre or the equivalent of 6 lbs a.i. per acre).**

**Activator (cable): 4.44 fl. oz. per 1000 sq. ft. (1.53 gallons per acre or the equivalent of 5 lbs a.i. per acre).**

**Guidelines for Tank Mixing Quali-Pro® Oxadiazon SC Herbicide and glyphosate:**

- Do not mix more than 6.66 fl. oz. of product per 1000 sq. ft. or 2.22 fl. oz. per 1000 sq. ft. per year.
- No mixing restriction on the use of Quali-Pro® Oxadiazon SC Herbicide in a tank mixture with glyphosate.

**Stay the directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all potential damages resulting from the use or handling of this product.**

**Disclaimer of Warranties:**

To the extent consistent with applicable law, Makhteshim Agan of North America, Inc. makes no other warranties, express, implied, statutory or otherwise, including but not limited to the implied warranties of merchantability and fitness for a particular purpose, and all other express, implied, statutory or other warranties are disclaimed. Any user who decides to use this pesticide shall bear full responsibility for ensuring that the use is consistent with all applicable laws and regulations, and that the user is properly trained in the proper use of this pesticide. The user assumes all risk of loss, injury, or damage that may result from the use of this pesticide. Makhteshim Agan of North America, Inc. shall not be liable for any loss, injury, or damage that may result from the use of this pesticide.
Oxadiazon sc
Herbicide

Preemergent Control of Annual Grasses and Broadleaf Weeds in Turf, Conifer Nurseries, and Ornamentals Including Landscape Ornamental Beds on Residential Properties by a Professional Applicator.

Contains oxadiazon, the active ingredient used in Ronstar® Flo Herbicide.
Quali-Pro® Oxadiazon SC Herbicide is not manufactured or distributed by Bayer Environmental Science.

ACTIVE INGREDIENT: % BY WT.
Oxadiazon: 3-(2,4-dichloro-5-(1-methylethoxy)phenyl)-5-(1,1-dimethylethyl)-1,3,4-oxadiazol-2(3H)-one ........................................... 34.4%
OTHER INGREDIENTS: ............................................................................................................ 65.6%
TOTAL: ................................................................................................................................... 100.0%

This product contains 3.17 pounds oxadiazon per gallon.

EPA Reg. No. 66222-188

KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID

IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

IF INHALED:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact Prosar at 1-877-250-9291 for emergency medical treatment information.
