## **GENERAL INFORMATION**

**SPINDLE SLICK** is a water-soluble formulation that will mix with water of any hardness.

**SPINDLE SLICK** contains antistatic agents to help prevent the sticking of cotton to spindles.

## **DIRECTIONS FOR USE**

1. Fill cotton picker tank at least one-half full of water.

**IMPORTANT:** Water and cleaner will not mix if cleaner is poured in an empty tank first and water added later.

2. Agitate the water by operating the precision moistener control water system. This will recirculate the water back through the supply tank.

3. While the water is agitating, slowly add the **SPINDLE SLICK** to the water at a ratio of 10-20 oz. per 100 gallons of cleaner solution.

4. Finish filling tank with water while agitating continues. After tank is filled, allow agitation to continue for approximately five minutes.

**NOTE 1:** For best results, the mixture should be used within 24 hours. If mixture is allowed to stand for an extended time, agitate for several minutes before picking.

**NOTE 2:** Additional cleaner can be added for make-up in a tank already containing some previous mixture. If tank is less than half full, fill with plain water to half full. Follow mixing instructions and add cleaner at the correct ratio for the amount of water being added for make-up.

## **FIRST AID**

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

**IF IN EYES:** Immediately call a POISON CENTER, doctor or physician. Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing for several minutes.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. If skin irritation occurs: Get medical advice or attention.

**IF SWALLOWED:** Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

**IF INHALED:** If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

## **STORAGE AND DISPOSAL**

**STORAGE:** Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local/regional/national/international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org). Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

**WARRANTY:** Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
