DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. READ ENTIRE LABEL. USE IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS FOR USE.

Snail & Slug Bait is a soil surface treatment for control of slugs and snails in citrus groves, orchards, berry crops, vegetable crops and gardens, ornamental gardens, seed grasses, dichondra, turf and grass lawns and in ornamental gardens. When applied as directed, Snail & Slug Bait will withstand rain and sprinkling and will offer protection to gardens and lawns for several weeks.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear long-sleeved shirt and long pants, chemical resistant gloves made of any waterproof material Category A (e.g. barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyvinylchloride (PVC or vinyl)), and shoes plus socks. Follow manufacturer’s instructions for cleaning maintaining PPE. If no such instructions for washables, use detergent and hot water. Remove and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water is long-sleeved shirt and long pants, chemical resistant gloves made of any waterproof material Category A (e.g. barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyvinylchloride (PVC or vinyl)), and shoes plus socks.

APPLICATION INFORMATION: For control of Snails and Slugs in the following areas, use 1 lb. to treat 1,100 to 1,500 sq. ft of soil surface (equivalent to 30 to 40 lbs. per acre). For smaller areas, use one level teaspoon per square yard. Apply when first plant damage appears or is anticipated and repeat as needed for control.

FRUIT TREE CROPS SUCH AS: Apples, Apricots, Avocados, Cherries, Peaches, Pears, Citrus (Oranges, Lemons, Grapefruit, etc.) Broadcast liberally under trees, around irrigation pipes, farm buildings and any other place where slugs and snails might congregate.

BERRY CROPS SUCH AS: Blackberries, Boysenberries, Loganberries, Raspberries, Strawberries. Apply only to soil surface.

ORNAMENTAL PLANTS:

ORNAMENTAL GARDENS, PLANTED BORDERS AND GROUND COVERS SUCH AS: Azaleas, Begonias, Camellias, Chrysanthemums, Daffodils, Diasies, Geraniums, Heucheras, Hydrangeas, Ice Plant, Impatiens, Iris, Marigolds, Pansies, Petunias, Rhododendron, Rose, Sweet Peas, Snapdragons, Spathiphyllum, and Tulips. Water the infested area thoroughly before application. Broadcast or sprinkle this product every over the infested areas and along edges of flower beds adjacent to border or ground cover plants. Also apply on ground at base of fences and walls in shady, protected locations. This product may be injurious to Daylilies and Clematis. Do not use on these plants.

ORNAMENT AL GREENHOUSES: Broadcast this product liberally around greenhouse, under benches in greenhouse and around plants; any place where snails and slugs might congregate. Do not apply directly to plants unless prior experience has shown the plant to be tolerant to this product. Most plants are tolerant to Snail & Slug Bait however some slight tip burning has been noticed on extremely tender orchids. This product may be injurious to Daylilies and Clematis. Do not use on these plants. NOTE: Snail & Slug Bait has proven to have a reasonable residual control, however for heavily infested greenhouses, a second application is recommended 7 to 10 days following the first application to bring the greenhouse under control.

SEED GRASSES: Broadcast this product directly and evenly.

TURFGRASS LAWNS: Broadcast this product directly and evenly. Do not apply to turf following application of this product. Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water is long-sleeved shirt and long pants, chemical resistant gloves made of any waterproof material Category A (e.g. barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyvinylchloride (PVC or vinyl)), and shoes plus socks.
