

## PYROCIDE<sup>®</sup> 100

McLaughlin Gormley King Company **PRODUCT CODE:** 017338

1. CHEMICAL PRODUCT AND	COMPANY INFORMATION					
PRODUCT CODE:	017338, EPA REG. NO. : 1021-1424					
PRODUCT NAME:	PYROCIDE <sup>®</sup> 100					
PRODUCT DESCRIPTION:						
CHEMICAL NAME:						
MANUFACTURER:	McLaughlin Gormley King Company, 8810 Tenth Avenue North, Minneapolis MN. 55427					
TELEPHONE M-F, 8:00-4:30 C						
	, 8:00-4:30 CST, 14:00-22:30 GMT: (800) 645-6466 or (763) 544-0341					
CHEMTREC U.S. and CANADA	DA: (800)-424-9300 CHEMTREC (ALL OTHER AREAS): (703) 527-3887					
FOR INFORMATION REGARDI	DING MEDICAL EMERGENCIES OR PESTICIDE INCIDENTS CALL:					
	1-888-740-8712 in U.S and CANADA or 952-852-9509 from all other areas					
2. HAZARDS IDENTIFICATION	J					
POTENTIAL HEALTH EFFE	ECTS: EMERGENCY OVERVIEW					
	CAUTION. OSHA-COMBUSTIBLE LIQUID. DO NOT use or store near heat, sparks, open flame, or any					
	ignition sources. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with ski					
	and clothing. Avoid breathing vapors or spray mists of this product. Contains petroleum distillates - V					
	may cause aspiration pneumonia. Wear a MSHA/ NIOSH-approved respirator. See Section 7 (Handling	g) or				
	Section 8 (Personal Protective Equipment) for detailed respirator specifications.					
EYES:	May cause temporary irritation, tearing, and blurred vision.					
SKIN:		outh).				
SKIN ABSORPTION:		,				
INGESTION:	Harmful if swallowed. Small amounts of this material may get into the lungs during ingestion or vomiting and	may				
	cause mild to severe lung injury.					
INHALATION:						
CHRONIC EFFECTS:						
CARCINOGENICITY:		/ IARC,				
	NTP, OSHA or ACGIH as being carcinogens.					
Carcinogenicity/	Pyrethrum has been tested in chronic feeding studies in mice and rats. Slightly elevated incidences of benign					
Oncogenicity:	of the thyroid and liver were seen in rats following high doses of Pyrethrum. Further detailed scientific studies					
Pyrethrins and PBO	mechanism causing these responses indicate that these effects in the animals only occur at doses greatly ex the likely human exposure levels. Thus, the effects seen in animals are of little relevance to humans.	xceeding				
	Marginally higher incidences of benign liver tumors in mice were observed following lifetime high dose expos	uroo to				
	PBO. The doses at which tumors were observed for pyrethrum and PBO greatly exceeded potential human e					
	from labeled uses. Doses at which these effects were observed greatly exceeded potential number of the second seco					
	anticipated dietary exposure levels, it is highly unlikely that this product will result in carcinogenic effects.					

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

COMPONENT(s)	CAS #	EXPOSURE LIMITS	SARA Title III Sec. 313 de minimus conc.	% BY WEIGHT
Pyrethrins	008003-34-7	5 mg/m <sup>3</sup> (OSHA, ACGIH)	Not Applicable	1.00
Piperonyl Butoxide	000051-03-6	Not established	1.00	2.00
MGK <sup>®</sup> 264 Insecticide Synergist	000113-48-4	Not established	Not Applicable	3.00
Paraffinic, Naphthenic solvent	064742-47-8	100ppm (525mg/m³) TWA Supplier	Not Applicable	75←→95
PEL = Permissible Exposure Limits. TLV = Threshold Limit Value.	÷	TWA = Time Weigh STEL = Short Term	ited Average (8 hr). Exposure Limit (15 min.).	

FIRST AID PROCED	JRES:
EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
SKIN:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
INHALATION:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
INGESTION:	Immediately call a poison control center or doctor for treatment advice. DO NOT give <b>any</b> liquid to the person. Do not induce vomiting unless told to do so by a poison control center or doctor. Never give anything by mouth to an unconscious person.
NOTE TO PHYSICIAI
