InVictTM AB

insect paste

InVict AB Insect Paste is simply the best ant bait we've ever tested! It contains 0.05% Abamectin, a botanical insecticide, and a range of sweet, oil, and protein attractants (but no peanut products). Studies show that it rapidly kills workers, queens and brood, eliminating the colony quickly. It is also highly effective on cockroaches. The paste formula is simple to use and can be used indoors, outdoors and in food areas. The special formula is non-drying and will last for several months, or until eaten.

ARGENTINE ANTS FEEDING ON INVICTTM AB INSECT PASTE

PHARAOH ANTS FEEDING ON INVICTTM AB INSECT PASTE

Product Cods: **IABP535**
box of five 35 g syringes with twist on caps
and one plunger
