

Tebuthiuron 20 P

Herbicide

Formulation
Pelleted

Active Ingredient
Tebuthiuron

Equivalent Brand
Spike®

Case Pack / Pallet
6 x 4 lb
1 x 25 lb / 40 bags

Application Rates
See label for
specific uses and rates.

Mode of Action
Soil activated and absorbed only
through roots. Disrupts
photosynthesis, causing
defoliation and plant death.

Signal Word
Caution

A 20 percent pelleted formulation for pre- and post-emergence control of woody plant species, brush and weeds on range and pastureland, including permanent grass pastures, fencerows, and clearings for wildlife habitat. Provides excellent control of sagebrush, creosotebrush, boxwood, kudzu and more.

- ▶ Long-lasting control of a wide range of brush and woody plants
- ▶ Excellent choice for bareground area/utility station weed control
- ▶ Pellets are stable on soil surface, resist breakdown
- ▶ Non-selective control with long-term results and value

Partial List of Weeds & Vegetation Controlled

Tebuthiuron works from the roots up, killing off tough brush and woody plants, including:

- Big Sagebrush
 - Sand Sage
 - Creosotebush
 - Post Oak
 - Sand Shinnery Oak
 - Running Live Oak
 - Blackjack Oak
 - Blackberry
- See label for complete list
